

Student-Centered Daily News and Current Events Promotes Global Learning

First program to combine daily headlines and current world events with published books

myON NEWS, powered by News-O-Matic, delivers highly engaging news articles for K-8 students, allowing them to connect to the world around them using any device, at any time. Created by professional journalists and reviewed by child psychologists, daily articles are written at students' emotional and reading levels. The current events texts cover up-to-date topics ranging from US & world news, arts & entertainment, science & technology, sports, and more.
