

Early Childhood Week

The week of April 19- 23, 2021

Dear Parents,

The week of April 19-23 has been designated as *Early Childhood Week*. This is a week-long celebration of early learning and recognition of the high-quality early childhood programs offered within Miami-Dade County Public Schools. This year, Early Childhood Week celebrates our accomplishments by highlighting the implementation of high-quality and innovative instruction, support of social-emotional development and virtual parent engagement. Each day during Early Childhood Week will be a different “theme” and we will have an activity associated with that day’s “theme”.

Mask Monday - April 19, 2021

Students will make their ideal mask by decorating a coffee filter, with a string attached. These masks can be worn over their normal mask (at home) and will be sent home to share with the families.

Techy Tuesday - April 20, 2021

Students will participate in a Waterford whole group activity. Waterford is something the students are familiar with doing independently. Through the use of technology (Interactive Promethean Board), the students will all get to participate interactively in a whole group Waterford activity.

Wash-up Wednesday - April 21, 2021

We will sing and move to our handwashing songs, practice and reinforce the steps of handwashing, and share different ways to count for 20 seconds while washing their hands. We will also read a book about “Invisible Germs” and how to get rid of them.

Thumbs-up Thursday - April 22, 2021

Students will answer the “Question of the Day” using a thumbs up or down response. During our morning greeting they can choose to greet their friends with one thumb up or 2 thumbs up. Students will give a thumbs up to friends throughout the day that they catch doing something kind.

Family Zoom Friday – April 23, 2021

Good morning song zoom with families. Families will be provided a zoom link to use and sing the Good Morning song with us to start our day.

Thank you for your support!

Ms. Tables and Mrs. Galvis
