

Rockway Elementary Kindergarten Supply List

Your child's job this year is to be the best student you can be. The student will need the tools necessary to get the job done. Listed below are the supplies needed this year for school. The student must have these items as soon as possible. It will be part of the parents/caregivers and the student to be sure that the child always has these supplies. Check the bookbag once a week with your child, to make sure that the needed supplies are replenished. Thank you for your anticipated cooperation. We are looking forward to an exciting and productive school year!
